

TELEHEALTH/TELEVIDEO VIRTUAL VISITS

Telehealth and televideo virtual visits will remain an option for those seeking care from home. You might be surprised by the variety of health care you can get through telehealth. While in-person visits with your provider are preferred, telehealth might be appropriate for some of your health needs.

What you need for a telehealth visit:

- A working and fully charged computer/laptop, tablet or a smartphone with or without a camera.
- An internet connection.
- An email address.
- A quiet space so you and your doctor can speak.

Telehealth is not a perfect fit for everyone or for every medical condition. Make sure you discuss any risks or disadvantages with your provider.

Excellence and Experience

Established in 1987, the Joseph P. Addabbo Family Health Center, Inc. (JPA) is a non-profit Federally Qualified Health Center with five (5) facilities located in the Rockaways, Jamaica in Southeast Queens and Red Hook, Brooklyn.

JPA has earned the highest designation as a Patient Centered Medical Home (PCMH - Level 3) which emphasizes the access to comprehensive primary and preventative health care along with care coordination.

We have a long history of delivering a full range of high-quality, accessible and cost-effective primary, preventative and specialty services to all those who walk through our doors.

We treat patients equally without regard to socioeconomic status, age, race, color, ethnicity, national origin, religion, culture, language, physical or mental disability, sex, sexual orientation, gender identity or expression. JPA patients are not denied services due to inability to pay.

Our caring professionals, board-certified physicians, nurses and certified support staff offer a wide range of services from routine appointments to "walk-in" services for sick visits. Our team is committed to one goal: helping you and your loved ones stay healthy

We hope you will make JPA your primary care medical home.
